

Другарят Кандидат

COMRADE CANDIDATE / Chapter One / From unpaid bills to the mayor's chair

01 / APARTMENT

02 / VILLAGE SQUARE

03 / МЕХАНА

Broke, in debt and armed with an accordion, Bai Mitko enters a same-day mayoral election. A real repair earns him credibility; a drinking trick earns him an ally; the Mayor's own bureaucracy makes him eligible to win.

Бай Митко е без пари, но с акордеон. За един ден трябва да стане кандидат, да спечели подкрепа, да намери урната и да победи кмета със собствените му правила.

FINALE GATE

Registered candidate + Baba support + Tony support + Journalist has receipt + ballot box

Meters change reactions and presentation, never the ability to win after the required path is complete.

Three bills and an accordion

Три сметки и един акордеон

SUPPLIED LOCATION REFERENCE / ACTION STAGING DESCRIBED BELOW

Wide room → TV and bills → accordion → door. Sound: TV announcement, knock, a short accordion wheeze.

OUTCOME / Main quest active. Bills + accordion acquired. The apartment stays accessible until the finale.

STORY SUMMARY

On election morning, a TV announcement and a creditor at the door give Mitko a practical reason to run for Mayor. Registration is today; voting is tonight.

По телевизията обявяват избори, а на вратата хлопа кредитор. Митко решава да стане кмет: там поне има заплата.

01 / SETUP

Inspect the TV or campaign poster. The main quest begins; the knock adds comic urgency.

02 / PLAYER ACTION

Take the unpaid bills from the table and the accordion by the door. Leave for the Square.

03 / PAYOFF

Debt becomes campaign material; the accordion will solve two later puzzles.

Penka manufactures competence

Пенка поправя липсата на диплома

SUPPLIED LOCATION REFERENCE / ACTION STAGING DESCRIBED BELOW

Square establishing view → kiosk window → bills fed into printer → diploma and pamphlets. Penka is not yet depicted in the supplied image.

OUTCOME / Bills consumed. Fake diploma + pamphlets received. This quest completes only at registration.

STORY SUMMARY

The election notice demands proof of administrative competence. Aunt Penka uses Mitko's bills to produce a diploma and campaign pamphlets.

За кандидатурата трябва диплома. Леля Пенка взема данните от сметките, обръща листовите и осигурява нужната квалификация.

01 / DISCOVER

Read the election notice. Talk to Penka at the kiosk; she explains the qualification requirement.

02 / PLAYER ACTION

Give unpaid bills to Penka. She uses the name, address and blank reverse sides.

03 / PAYOFF

Receive the fake diploma and campaign pamphlets. Registration still requires validation.

A candidate becomes visible

Кандидатът вече е на стената

SUPPLIED LOCATION REFERENCE / ACTION STAGING DESCRIBED BELOW

Wide Square → hand presses pamphlet onto board → Journalist arrives → glance toward Municipality. Existing screenshot is location reference, not a before/after state.

OUTCOME / Campaign posted. Journalist quest becomes available; Municipality entry opens.

STORY SUMMARY

Posting the pamphlets turns a private scheme into a public campaign. The Journalist appears and the Guard recognizes Mitko as a candidate.

Митко разлепва агитационните материали. Журналистката се появява, а охраната вече го разпознава като кандидат.

01 / PLAYER ACTION

Use campaign pamphlets on the poster board in the Square.

02 / VISIBLE CHANGE

Mitko's campaign material appears on the board. The Journalist enters the hub.

03 / UNLOCK

Municipality access becomes available. No bribe, disguise or extra Guard quest is needed.

Baba wants one working thing

Баба иска нещо да проработи

SUPPLIED LOCATION REFERENCE / ACTION STAGING DESCRIBED BELOW

Baba at bus stop → dry valve → oil application → hesitant stream → approving reaction. Suggested staging; supplied image shows the unrepaired location.

OUTCOME / Baba support secured. Fountain repaired. One mandatory support bloc is complete.

STORY SUMMARY

Baba Stoyanka will trade her support for a small, completed repair. The Old Men identify the fountain's rusted valve and suggest cooking oil.

Баба Стойанка не иска обещания. Исква вода от фонтана. Старците знаят проблема, а в механата има олио.

01 / CLUE

Ask Baba for her vote. Inspect the squeaking valve; the Old Men explain that water still reaches it.

02 / PLAYER ACTION

Get sunflower oil from the Mehana. Use it on the fountain valve, then operate the fountain.

03 / PAYOFF

A weak but visible stream appears. Baba publicly supports Mitko; the repaired state persists.

Tony measures political capacity

Тони измерва политическия капацитет

SUPPLIED LOCATION REFERENCE / ACTION STAGING DESCRIBED BELOW

Table two-shot → water jug → accordion phrase → Tony turns away → Mitko’s glass → receipt. The substitution is automatic after the correct item use.

OUTCOME / Tony support + receipt. Early water use is refused; a loss resets immediately. Water is refillable.

STORY SUMMARY

Tony’s test is a drinking challenge. Mitko uses the accordion to make him sentimental, then substitutes water into his own drink.

Тони признава кандидат, който издържа на масата. Митко го разчувства с акордеона и подменя собственото си питие с вода.

01 / PREPARE

Accept the challenge and obtain a glass of water from the jug.

02 / PLAYER ACTION

Use the accordion on Tony. When he turns away, use water on Mitko’s own drink.

03 / PAYOFF

The drinking sequence plays. Tony backs Mitko; a suspicious municipal receipt appears under the glass.

A receipt changes the story

Една касова бележка сменя темата

SUPPLIED LOCATION REFERENCE / ACTION STAGING DESCRIBED BELOW

Poster board → Journalist’s notebook → receipt close-up → look toward the fountain → Municipality. Journalist placement is proposed; she is absent from the screenshot.

OUTCOME / Receipt transferred to Journalist. Her quest completes and the Mayor confrontation becomes possible.

STORY SUMMARY

The Journalist tests Mitko’s claims against completed actions. Tony’s receipt lists the Mayor’s Mehana expenses as fountain maintenance.

Журналистката проверява свършеното. Бележката от механата показва, че кметът е отчел почерпката като поддръжка на фонтана.

01 / REACT

Talk to the Journalist after posting campaign material. Her questions reflect repairs, supporters and diploma.

02 / PLAYER ACTION

Show her the suspicious receipt earned from Tony’s challenge.

03 / PAYOFF

She takes the receipt and goes to the Municipality to demand the Mayor’s explanation.

The Mayor stamps his own problem

Кметът подпечатва собствения си проблем

DRAFT CONCEPT / NOT APPROVED GAME ART

Clerk's rejecting hand → office confrontation → stamp impact → diploma reveal → registration. Two draft frames show the rejection and reversal.

REJECTED → STAMPED → REGISTERED

The Mayor defeats his own gatekeeping. The official stamp is a story action, not a new collectible.

OUTCOME / Candidate registered. Fake-diploma quest complete. Ballot-box quest starts. No separate stamp item puzzle.

STORY SUMMARY

The Clerk rejects the diploma without the Mayor's validation. During the receipt confrontation, he proudly stamps the entire paper stack, including Mitko's diploma.

Деловодителката иска заверка. Докато защитава разходите си, кметът подпечатва цялата купчина, включително дипломата на съперника.

01 / OBSTACLE

Enter after posting pamphlets. Present the diploma: the Clerk requires the Mayor's stamp.

02 / REVERSAL

Accompany the Journalist. The Mayor offers a minor post; Mitko stays in the race. The Mayor stamps the mixed stack.

03 / PAYOFF

The Journalist notices the validation. The Clerk registers Mitko and discovers the ballot box is unavailable.

The accordion opens the archive

Акордеонът отваря архива

DRAFT CONCEPT / NOT APPROVED GAME ART

Cabinet handle → strap loop → anticipation and pull → door opens → inventory shelf. Art continuity fix: the ballot box must be empty here; the draft incorrectly shows papers inside.

STORY SUMMARY

The Clerk traces the missing box to an absurd inventory category. In the archive, a jammed cabinet has a strong handle but needs extra leverage.

Урната се води прозрачен сезонен съд. Шкафът в архива е заял, но здравият ремък на акордеона решава въпроса.

01 / CLUE

After registration, the Clerk explains the container classification and sends Mitko to the archive.

02 / PLAYER ACTION

Inspect the cabinet. Use the accordion; Mitko loops its strap around the handle and pulls.

03 / REVEAL

The open cabinet gives access to the ledger, pickle jar and ballot-box storage.

OUTCOME / Archive opened. Accordion retained. Read the ledger before attempting the container exchange.

One transparent container remains

Един прозрачен съд трябва да остане

DRAFT CONCEPT / NOT APPROVED GAME ART

Ledger insert → compare jar and box → jar placed in classified slot → box lifted. The reused archive frame establishes the props; the swap needs its own future action shot.

STORY SUMMARY

The ledger cares about container classification, not purpose. A pickle jar can occupy the ballot box's storage position and satisfy the rule.

Правилникът не различава урна от буркан. Митко оставя буркана на нейното място и взема урната за изборите.

01 / READ THE RULE

The ledger requires one transparent seasonal container to remain in storage.

02 / PLAYER ACTION

Take the pickle jar, then place it in the ballot box's classified position.

03 / PAYOFF

Take the ballot box. The jar stays in storage, so the inventory requirement remains satisfied.

OUTCOME / Ballot box acquired; archive quest complete. There is no additional release-form or stamp puzzle.

The election turns on the paperwork

Изборите се решават по документите

DRAFT CONCEPT / NOT APPROVED GAME ART

Box on central table → arrivals → Mayor objection/reaction shots → Clerk and Journalist reveal evidence → ballots → result.

OUTCOME / Requires registration, Baba + Tony support, Journalist holding receipt, and ballot box. All five guarantee victory.

STORY SUMMARY

Mitko delivers the box. The Mayor objects, but the Clerk and Journalist answer with his own stamp, classifications and expense records. The villagers vote.

Митко носи урната. Кметът оспорва всичко, но собствените му документи оборват възраженията. Селото гласува.

01 / ASSEMBLE

Deliver the ballot box. Baba, Tony, regulars, Old Men, Penka and Journalist attend.

02 / CONFRONT

Qualifications: stamped diploma. Removed box: ledger rule. Jar replacement: identical classification.

03 / PAYOFF

The repair and support answer the final attack. Voting proceeds; Mitko wins a narrow majority.

Mr. Mayor still owes money

Господин кметът още дължи пари

SUPPLIED LOCATION REFERENCE / ACTION STAGING DESCRIBED BELOW

Proposed closing composition: creditors enter → Mitko looks toward Municipality → fountain insert → end card. Square image is a location reference.

STORY SUMMARY

The defeated Mayor blames the result, not the process. Mitko’s creditors arrive and address him as Mr. Mayor. The fountain gives one last weak spurt.

Кредиторите вече се обръщат към Митко с „господин кмете“. Дългът е същият, само длъжността е нова. Фонтанът изпръсква за последен път.

01 / REACTION

The former Mayor insists the process remained under control.

02 / FINAL JOKE

Creditors arrive. Mitko looks toward his new office and rebrands private debt as a governing program.

03 / CLOSE

The repaired fountain spurts weakly. Save the victory state and show Chapter 1 Complete.

OUTCOME / Main quest complete. Mayor defeated; Mitko wins the municipal seat; Chapter 1 completion saved.

Every object earns its place

Continuity: required objects cannot be permanently lost before use. Wrong actions give clues; Tony’s challenge resets; the apartment remains available until the finale.

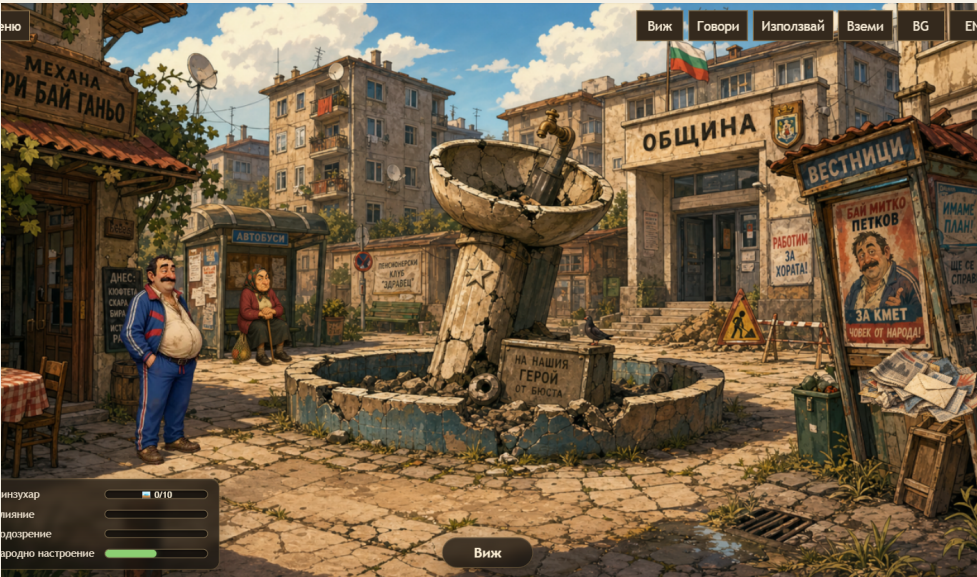

A village that reacts to the player

These are optional interactions, not additional quests or dependencies.

APARTMENT

Window, mirror, wardrobe, repeated creditor knocks and TV flavor. These establish Mitko and teach looking around.

SQUARE

Statue, election notices, old posters, bus delays, fountain observations, Penka comments and the Old Men Chorus.

MEHANA

Radio, goat portrait, décor, Tony's barks and harmless failed drinking animations. Some script props are absent from the reference image.

MUNICIPALITY

Broken ticket machine, tagged plastic plant, former-Mayor portraits, absurd door labels and Clerk refusals.

ELECTION BOOTH

Workers' barks, crowd reactions and alternate Journalist phrasing. Meters can color the result, but cannot invalidate the completed path.

The story is fixed. The staging is a draft.

This board summarizes the Chapter 1 design; it is not a claim that every scene is playable today.
